Tabletops, Bar Tops & Benches
Stainless Steel & Cast Iron

BENEFITS

- **Bleach-Free**
- **Safe on Most Surfaces**
- **Leaves Surfaces Clean & Smelling Fresh**
- **Penetrates and Removes Deep-Set Organics**
- **Degrades Soap Scum and Hard Water Stains**
- **Non-Acid**
- **Non-Abrasive**

The challenge of finding cleaning agents that will remove tough stains and perform heavy-duty cleaning jobs, without having to use unsafe, dangerous acids, bleaches and other harmful chemicals, is why BioLogix **BIOGEL** was developed.

BioLogix **BIOGEL** is a thickened gel-type, non-abrasive cleaner, formulated with superior cleaning agents, which has been bio-enhanced to provide superior cleaning ability and organic breakdown and removal, without the risks associated with the dangerous chemicals of the past.

BioLogix **BIOGEL** is formulated with BioLogix **SporeCon**, which contains selectively adapted *Bacillus* organisms. These organisms have been designed for accelerated degradation of grease, fats, oils and proteins, as well as many other organic compounds. In addition, these organisms have been safety tested to be salmonella negative and contain no pathogenic organisms.

BioLogix **BIOGEL** is safe for use on virtually all hard surfaces and areas where stubborn stains and odors reside. **BIOGEL** will actually benefit septic systems and is environmentally friendly, unlike traditional cleaning products, which can kill the beneficial bacteria in your septic tank, causing system breakdown and odors, as well as harming the environment.

BioLogix **BIOGEL** is formulated with an attractive Teal color with a pleasantly clean Herbal fragrance.

Directions For Use:

BioLogix **BIOGEL** works best full strength. Simply apply to wet cloth or sponge and rub into area to be cleaned. Rinse. For tough stains, apply **BIOGEL** directly to the stained area and let sit for 5 minutes, then rub with wet cloth or sponge and rinse with water.

For lighter stains/soiling, **BIOGEL** can be diluted 1:1 in warm water. Apply, scrub and rinse.

BioLogix **BIOGEL** is available in Quarts, Gallons, 5-Gallon Pails and 55-Gallon Drums.

Storage and Handling:

Store in a cool, dry place. Avoid inhalation; wash hands after contact. Avoid eye contact. BioLogix **BIOGEL** is non-toxic and cruelty free.
