## "The Difference is Science"

All natural, non-toxic & biodegradable cleaner removes tough pet odors & spots.

**BioLogix<sup>®</sup> Pet Odor & Spot Eliminator** is scientifically formulated for use in areas where pet soiling, build-up, and associated odors reside. **BioLogix<sup>®</sup> Pet Odor & Spot Eliminator** is a synergized blend of selectively adapted microorganisms that provide maximum breakdown and removal of organic substances such as **URINE**, vomit, feces, grease, blood, etc. **BioLogix<sup>®</sup> Pet Odor & Spot Eliminator** is non-toxic, biodegradable, cruelty-free and works without the use of dangerous bleaches, harsh acids, or corrosive chemicals of the past.

**BioLogix<sup>®</sup> Pet Odor & Spot Eliminator** features our exclusive **Odor Suppression Technology (OST)**, which prevents organic materials from releasing odors, providing immediate odor relief upon contact. **BioLogix<sup>®</sup> Pet Odor & Spot Eliminator's** specialized bacteria & enzymes then complete the process by attacking and destroying the odor at its source – permanently!

## Applications

Carpeting & hard surface flooring, furniture & upholstery, bedding, crates, carriers & cages, kennels, dog runs, horse trailers, stables, marking areas, litter boxes, automobiles and other areas where stubborn spots and odors reside. Use of **BioLogix<sup>®</sup> Pet Odor & Spot Eliminator** assists in housebreaking pets by eliminating the residual odors that "trigger" marking instincts.

## Directions for use

Shake well before using. Test carpet and fabrics for colorfastness prior to use. **BioLogix<sup>®</sup> Pet Odor & Spot Eliminator** works best when applied full-strength. After removing (soaking up) excess deposits, saturate contaminated area, rinse with water and allow to air dry. On carpeting, use enough **BioLogix<sup>®</sup> Pet Odor & Spot Eliminator** to penetrate carpet and padding, through to sub-flooring. For best results, **BioLogix<sup>®</sup> Pet Odor & Spot Eliminator** must come into contact with all contaminants. Re-apply as needed.

## Ingredients

Bacteria & enzymes, odor suppressant (OST) and surfactants suspended in an aqueous solution.
